THE ATHLETIC ASSOCIATION HOLD MEETING

Managers Requested to Hand
In Cards.

VARSITY CRITICIZED.

Snowshoers To Compete At
Dartmouth.

A regular meeting of the McGill A.A. was held last night in the Union at which many things of importance were brought up.

A short discussion arose over the case of S. Kellner, of Commerce, who took part without permission of the A.A. in the M.A.A.A. smoker last Saturday. His actions were in direct contradiction to the rules of the College, which prohibit men taking a course at McGill from competing on an outside team.

As this is the first serious offence of this nature during the present season, action will be withheld by the Athletic Association until its next meeting, meanwhile its president will have a talk with this man and get further details of the matter.

Following this, the physical director stated that the eligibility "cards" were not being handed in satisfactorily, and in future he wished that the managers of the different clubs would make a point of seeing that these cards were handed in at least one day before the game was scheduled to take place.

Another matter of importance to be brought up was included in a motion which stated that the Athletic Association disapproved of the action of the manager of the Toronto Hockey Club in disapproving of the officials selected for the game last Saturday night, as he himself, as secretary of the Inter-collegiate Hockey Union, had previously appointed them.

The dates and scale of admissions for the coming aquatic meets were then discussed and resulted as follows:

Saturday, Feb. 14, 8.00 p.m.—University Aquatic Meet. Admission 50c.

Friday, Feb. 20th, 8.00 p.m.—Inter-collegiate Meet. Admission 50c.

Saturday, Feb. 21st, 8.00 p.m.—Inter-collegiate Water Polo. Admission 75c.

An application was made by the Track Club to have permission to send two snowshoers to the Dartmouth Meet, next month. This was granted, and financial backing of the Students' Council is expected.

UNDERGRADUATES IN MEDICINE.

The Undergraduates of Medicine as a whole are not supporting the Medical Dinner. Latest reports indicate that the representation from each year, exclusive of the third and fourth, will not exceed a dozen. No doubt a large number will decide to come at the last moment, but unless this is the case, complete success will be impossible.

To attend this annual function should be considered a duty as well as a pleasure. The tickets are only \$3.50 per plate, and may be obtained from the representatives of each year. Be at the Place Viger Hotel at 7.30 tomorrow night.

Y.M.C.A. CAMPAIGN RUNS SMOOTHLY

New Methods Of Canvass
Promise To Secure Good
Results.

The Y.M.C.A. financial campaign is going forward smoothly. A departure has been made from the regular custom in making a single canvasser for both the local work and the branch in Ceylon. There is a danger, of course, that some may forget that in this subscription they are combining their support to the University "Y" and their mission giving for the year, and contribute on the "dollar to the Y" basis. But the experiment is worth the risk for one year. Again, there is an innovation in method of canvass, as the classes have been asked to appoint their own collectors. The readiness with which this has been undertaken indicates goodwill, if nothing more.

The collectors are finding the usual differences of opinion. Some see nothing good in the University "Y," but have a dollar or two for Ceylon. Some believe that Ceylon has no claims on us, and assign their coin accordingly. Some returned men back the organization that stood by them overseas: some withhold support because of a different opinion of the military Y.M.C.A. Perhaps a real knowledge of available facts might modify the

McGILL WINS EASILY FROM NATIONALS

Little Effort Needed To Gain
17-4 Victory.

ONE-SIDED CONTEST.

Loyola Defeated Westmount
9-3 In Faster Game.

Playing against Nationals at the Mount Royal Arena last night, McGill administered a smashing defeat to them, winning by the overwhelming score of 17 to 4. It was their third victory inside of a week.

From start to finish, the Red and White were to all intents and purposes the only team on the ice. Throughout the game they scored almost at will in spite of the fact that McGill did not put up their best brand of hockey. However, as can readily be seen by the final score, they didn't need it. The way the Red and White have been travelling lately, it will take a very powerful organization to make them extend themselves.

Right from the start, the McGill sextette showed the crowd what they could do, by scoring three goals within the first two minutes. "Boo" Anderson opened up the game by rushing, and he scored on a nice piece of stick-work. Half a minute later, Heney sagged the nets after an end-to-end rush. Almost immediately afterwards Peverley scored from a mix-up in front of the Nationals' goal, and two minutes later he made it 4 to 0, by slamming in a rebound from Behan's shot. At this point, Nationals showed a little life, and they counted two goals in quick succession. Towards the close of the period, the Red and White got two more points, the two Andersons scoring in quick succession.

The second period was a repetition of the first, with the Red and White taking it easy and yet scoring almost as often as they wanted to. Behan counted the first, beating out Brosseau by a pretty exhibition of stick-handling. Brishols managed to beat out Clarke, making it 7-3. A few minutes later Dineen scored on a pass from Heney. A three-man rush resulted in Peverley making it 9-3. Dineen followed this by counting another on a pass from Heney, and just before the end, on a pass from Dineen, Behan scored McGill's eleventh goal.

In the third period, the Red and White continued to score goals in leisurely fashion, fattening up their goal totals, and at the same time not overworking themselves. Behan counted the first goal of the period by beating out Brosseau on a pass from Heney. One minute later, Cully scored on a lone rush, and almost immediately afterwards Heney rushed and passed to Peverley, who made it 14-3. Cully rushed again, and beating out the whole opposing team, slammed the puck into the nets. Dineen followed this up by counting another, and one minute later Cully added one more to the total. To end up, Nationals managed to beat out Clarke, making the final score 17-4.

The line-up:

McGill	Nationals
Clarke.....Goal	Brosseau
Cully.....Defence	Brunet
Heney.....Defence	Contant
Behan.....Forward	Brishols
R. B. Anderson.....Forward	Pelletier
Peverley.....Forward	Lavallee
E. Anderson.....Sub.	Coulant
Dineen.....Sub.	Panneton

SUMMARY.

First Period.
McGill.....R. B. Anderson .. 1.00 min.
McGill.....Heney .. 0.30 min.
McGill.....Peverley .. 0.30 min.
McGill.....Dineen .. 2.00 min.
Nationals.....Pelletier .. 2.00 min.
Nationals.....Brishols .. 2.00 min.

McGill.....Cully .. 0.30 min.
McGill.....Dineen .. 2.00 min.

(Continued on Page Two.)

opinions of all more or less. On the whole, the spirit is good, and in general there is a frank recognition of the fact that the "Y" can only be what the students make it, by their support, material as well as moral. The latter is needed all the time; the former is called for only once a year.

ALL IS READY FOR SATURDAY SKI-ING EVENT

Course Now Marked Off For
Cross-Country Race.

THREE MILES.

Start At Jumps, Over Mountain, Around To Campus.

The novice cross-country race of the McGill Ski Club starts Saturday at 8.00 o'clock sharp from the Cote des Neiges Jump. The course covers only three miles, ending at the McGill Campus, and there are few steep hills. Care has been taken to choose as easy a course as possible. Red hunting has been fastened to branches, shrubs, trees, etc., all along the course, and in the open places red flags will show the way.

From present indications, about fifty intend to take part, but the course is of such a nature that there will be plenty of space to pass anyone in front. No matter how poor at ski-ing you may be, be sure there is someone worse. There is nobody who, even without training, cannot cover this course. Besides being a novice race, those who enter, not competing for the novice prizes, stand a good chance of making the team.

Be sure to give your name to Eric Parsons, who is the official starter. Norman Williamson and Gratton Thompson will be time-keepers. As regards the finish, there will be a flag posted on the Campus near the rink. This flag is the goal. When you get there, give your name quickly. Saturday night, a list of the team will be sent to Dartmouth.

The following brief description of the course may help some. Starting at the ski jumps, the course winds down Cote des Neiges past the cemetery, until you come to a road, known to some as the Shakespeare road. This is just before you come to the reservoir. Here you turn left, as the bunting shows. Then there is a straight road for about 200 yards, when you come to a fork. Here, turn to the right towards the Park Slide, which can be seen about 200 yards further on. Make straight for the Park Slide, crossing road and keeping to left of the building, on which there is the sign of the Montreal Ski Club. After passing this, the course leads uphill, bending to left. At the top of the hill keep to the left of the wooden shelter, then down the other side of the hill to the "cross-roads." Continue up the hill there towards "sudden death." Skirt top of the hill, taking gradually slope at the end of the level which leads to left. The course suddenly turns to right. Care should be taken here. Cemetery is seen on left. There is only one path leading down to wire fence of the Cemetery. Follow the fence, turning to left at fence corner, still following fence. Then up a gradual hill and turn right, left, then right as bunting shows. Here the course comes to the bridge path. We follow the bridge path, through the gate. Keep on the track (Continued on Page Two.)

SWIMMING CLUB PRACTICE HARD

In Preparation For M.A.A.A.
—McGill Meet Saturday
Night.

A large number turned out for the swimming practice last night. Coach "Jimmie" Rose was on the job, and he kept the men hard at work for an hour.

The Swimming Club is still looking for a man to do the "Long Plunge." Any man who can plunge forty feet or more is requested to turn out for the next practice on Tuesday at 8 p.m.

The following men were out last night, and will take part in the M.A.A.A.-McGill meet tonight: Winter, Laidly, Bartable, Binns, Williams, Parsons, Wiggs, Elder, Lighthall, Millar, Wade and Notman.

Winter, Parsons, Laidley and Walters showed up well in swimming, and are rapidly getting into form.

After the swimming practice a polo game was played for one half hour. Bartable, Winter and Parsons made a good showing on the forward line and put in several goals.

The next practice will be on Tuesday at 8 p.m. On Saturday night it is hoped there will be a big turnout at the swimming meet, when McGill will meet M.A.A.A. Tickets may be had from the p. w. at the Union.

FRIDAY, FEBRUARY 6, 1920.

DESTRUCTIVE CRITICISM

The contents of the Correspondence Columns during the present session would seem to indicate a strong spirit of true constructive criticism in the student body. Scarcely a University activity from Football to Mock Parliament has failed to be benefitted in one way or another by the well-considered advice of those who think. The manifestation of this spirit of constructive criticism is one of the most satisfactory evidences of an unusual amount of college-spirit.

Unfortunately no one at the present time can fail to sense the pervading presence of criticism in a more sinister form. While criticism in a constructive form may be a wholesome corrective, when stripped of its saving virtues it becomes one of the greatest agents of discontent. And yet this wholly worthless and malevolent form of criticism seems to be gaining ground. The "Daily" is charged with a lack of policy, the Literary and Debating Society with lack of zeal in spite of its efforts on behalf of the Mock Parliament, and so on with every major or minor organization of the University.

But whence does this reckless criticism emanate? It is not from the dilettante minds of the ignorant. On the contrary most of the reckless and abusive utterances come from the lips of those who should know better. The destructive critic, however, bears one almost unmistakable hallmark. Ask the most ardent critic of the "Daily" if he has ever devoted a single hour towards its publication, and you will be answered with a scornful negative. Ask the man who declaims most vehemently against any particular organization if he has ever spent a fraction of his energy or mental powers to ameliorate the conditions of which he complains. Almost invariably he will pause in his tirade long enough to utter a contemptuous "no."

But the non workers are not the only ones, who indulge in this malignant pastime. It seems to be becoming more and more a matter of good form for ex-members of executives to heap calumny on the heads of their persevering successors. This latter class are at most thoughtless and inconsiderate, and it is the former which has strayed furthest away from the path of citizenship. But the combination of these two make for disintegration and friction in the dynamo of University Life.

SATURDAY'S GAMES

Next Saturday the Red and White will participate in five games one of which is an intercollegiate fixture. One hockey, one baseball and three basketball exhibitions will be staged. All deserve great support and will undoubtedly command a large audience.

In the afternoon the R.V.C. basketball team will endeavor to show the Queens' girls in their second game, that they are as adept at this sport as their fellow students of the male sex. This intercollegiate game will be one of the main drawing cards of the season, and from present indication the large gym in the High School will be filled when the whistle blows.

The intermediate hockey team will at the same time endeavor to win another game and further entrench themselves in the first position of the league. Their opponents will be the Shamrock club and it is expected that an interesting encounter will ensue. The "White" baseball team will journey to Macdonald College where they will meet the Staff team.

The two City League games will be played at night. The senior quintette will endeavor to carry off the honors in a meeting with Highlanders, while the intermediate "B" aggregation will pit their skill against that of the Shamrocks.

All these encounters deserve the support of the student body and the fact that each and every team has been playing in fine form should be an added enticement.

ALL IS READY FOR SAT. SKI-ING EVENT

Continued from page 1.

of the red bunting down to the road. The course continues to the right along the road until you come to the Incline Railway. At this point, turn to the left, under a bar—watch your head—and then to right under the tracks. Turn to left and slide towards Fletcher's Field. At Fletcher's Field turn

to the right, following the wooden fence, and down the gradual slope to Pine Avenue. Proceed up Pine Avenue to University Street, and then turn down. Turn into the McGill grounds at the entrance, passing the New Medical Building. Then follow red bunting across Campus to the flag planter near the rink.

The course is not as long as it would seem to be from the above, and the hills are not steep, for the track too

BETTING ON R.V.C.-QUEENS FIXTURE 2-1

For Donalda Team—Two Games Scheduled.

QUEENS ARRIVE TO-DAY

Visitors Will Be Royally Entertained By Hostesses.

For many reasons it has been found impossible for the R.V.C. basketball team representing McGill to proceed to Kingston. Consequently, both matches will be played in Montreal. The first taking place at the High School gymnasium on Friday evening, at 9.15. The other at the same place, as previously scheduled, on Saturday afternoon at 3 o'clock.

Great preparations have been made for the arrival of the Queen's players; in their routine being included attendance at the Partial Tea on Saturday after the game. Also a visit to "Chu Chin Chow" is timed for the same night.

The R.V.C. team will consist of the following:

Forwards: Marjori Legatt, Zuada Slack.
Centre: Dorothy Russell.
Wings: Grace Moody, Mary Fry.
Guards: Quenno Savage, Ella Shlackman.

Sparos: Hazel Davidson, Eleanor Cox, K. Gillespie.

Queens:—Margaret McArders, M. Cannon, R. Evenson, B. Stewart, H. Traver, Evelyn Campbell (Capt.), C. Stewart. Representatives: Miss Marion Brown.

Great interest has been manifested by the men students of the University in the coming events. At present the odds are greatly in favour of the local players, but Queen's are sending up a formidable aggregation and some youthful spectators may be surprised at the outcome.

Correspondence

The Daily is not responsible for the sentiments of letters published in the correspondence columns. Signed communications from graduates, undergraduates and members of the faculties will be placed in print if they are not of too great length.

Correspondents are requested to observe the unwritten law of the newspaper office—that they write upon ONE side of the paper ONLY.

No communication will be admitted in this column without the name of the writer being attached, not necessarily for PUBLICATION.

To the Editor, McGill "Daily."

Dear Sir:—

Regarding Parliament any occurrences in general I beg of you to insert this letter on behalf of the Constitutional Party.

First, it is regretted that "A. T. M." should have been offended by the article he refers to. Surely he is of too serious a mind and lacking in sense of humor. Everything he sees regarding the Parliament he should not swallow in entirety. Moreover, has he never heard of political discussions assuming other form of language than "correct English and at all times courteous?" "The mean tactics of mud-throwing" are adopted by oppositions whenever possible, and are a means of maintaining the enthusiasm of "agin-the-Government" followers. In this case it so happens they were well-founded.

But to turn to more serious matter, the postponement of the meeting, called for February 5th, needs comment. Not only did the Constitutional Party have no notice in advance of the necessity of so doing, but the postponement itself was done in a hide-and-go-seek manner in the "Daily," not even given prominence among the notices.

I understand this postponement was unavoidable, but the circumstances which caused the need of such action could easily have been foreseen by those responsible.

The original meeting was a great success. The general enthusiasm has if anything grown since. It is regrettable that anything should occur to dampen it, for surely the Mock Parliament has sufficient good points to warrant strong support. It is up to the Executives of the "Lit." and of both parties to keep up the interest, and in this our party will always be ready and willing.

The next meeting will be held at 8.00 p.m. on Monday, February 9th, in the Union, we are informed. I hope the "Daily" will see that this is well advertised in its columns, and would suggest a repetition of the notice. Further each Monday of February meetings will be held.

Yours truly,

W. H. BIGGAR,

For the Constitutional Party.

To the Editor, McGill "Daily."

Dear Sir:—

In as much as there is a strong rumor prevalent regarding a movement to institute compulsory military training at McGill, I would like to ask the Students' Council, if they could state, through the columns of their

mouthpiece the "Daily," whether or not, to their official knowledge this rumor has any foundation in fact. Would it also be possible, for the satisfaction of the Student body, for the Council to declare definitely its attitude on this important question.

Yours sincerely,

D. W. AMBRIDGE.

To the Editor, McGill "Daily."

Dear Sir:—

I'm well-nigh fed-up with the utterances of the co-called Constitutional Party. Every article they publish shows these allusions as the best argument they can bring forward why the Progressives should be overthrown. And they always put these remarks near the end of their arguments showing that, the end being the most emphatic part of a composition, they consider these allusions as the best argument they can bring forward why the Progressives should be overthrown. Did you ever imagine a poorer sort of fighting stuff than the Constitutionals are made of? Do they think Tommyrot like this will go? I belong to neither party so far, but were I to choose do you think I would ally myself with men (?) who have nothing more effective to do but how mud? It's disgusting to hear McGill men make use of such superlative sweeping epithets and in spite of the editorial in the "Daily" advising against the injudicious use of such words as "Bolsheviki, Soviet, etc." If the Constitutionals have nothing else to say, let them remain quiet and thereby show their common sense.

Yours truly,

JITS.

To the Editor, McGill "Daily."

Dear Sir:—

A notice has recently appeared in the various faculty buildings, reaffirming the decision of the Corporation to enforce compulsory physical training in the first three years. It is further stated that those who do not comply with this regulation are liable to severe penalties affecting their academic standing. The President of the "Daily" in the issue of Feb. 3rd, stated that the policy of this paper was opposed to any coercion of the upper years to physical training. Where does the Junior year stand? Is the "Daily" about to take action on this issue or are we going to be compelled to "toe the mark" again in military fashion?

Yours sincerely,

E. D'ARCY MCGREER.

Montreal, Que.,

February 5, 20.

To the Editor, McGill "Daily."

Dear Sir:—

I beg to draw your attention, and that of the readers of this paper, to the notice which recently has been posted in the various buildings re physical education. Is the Board of Governors the mysterious hand behind the editorial policy of the "Daily"? Are the proceedings of the Students' Council actually controlled by the students themselves or by this body? Evidently the editors of the "Daily" are not expressing their views, but are catering to the wishes of those in authority.

The object of the compulsion in this training is quite evident. The notice does not state that the C.O.T.C. will supply this form of education, but it is now clear why the Students' Council gave its support to the Military Dinner. The C.O.T.C. will surely flourish, and McGill will have, as promised, a gymnasium, a splendid monument to the slavery of McGill students. I ask, should not the students have some voice in this matter and not be crushed in their freedom by what appears to be a political influence?

Thanking you for this space in your columns,

I remain,

Yours truly,

JUNIOR YEAR.

Ed. Note.—In a recent issue of the paper we stated our opinion on the matter of compulsory physical training. We still hold that opinion, notwithstanding the announcement of the Corporation. Unfortunately we cannot inflict our views on this body, and any action that is to be taken must be started by the student body. The most we can do is to publish our opinion.

As an answer to the question of whether the Board of Governors is the mysterious hand behind the editorial policy of the "Daily," we say emphatically "no." The Corporation have absolutely nothing to do with the direction of the paper.

The writer makes a somewhat serious statement when he says that "Evidently the editors of the 'Daily' are not expressing their own views but are catering to the wishes of those in authority." The answer to this is that the opinion which we expressed is in opposition to the statement of the Corporation regarding compulsory physical training.)

READING CONTEST.

A novel affair is to be held by the Societe Francaise next week, in the form of a Reading Contest. Each entrant will be required to read a selection she has chosen herself and rehearsed beforehand, as well as a piece chosen by the judges to be read at sight. To do this is not nearly as nerve-racking as public speaking, and as just as interesting. Girls who wish to enter are asked to leave the name of the prose writing they choose with Doris Sharples, Secretary of the Societe.

WESTERN MEN HELD SUPPER LAST EVENING

Plans Discussed For Coming Dance and Banquet.

HOME BY AUTO.

Harmony Orchestra Furnished Delightful Music.

The Westerners of McGill University met in the Union last evening and enjoyed a sumptuous supper. Western spirit, not in the form of a liquid, but rather in the form of good fellowship, waxed high. It was the first gathering of this organization for a considerable period, and it was the occasion for the confirmation of friendships, for the renewal of acquaintances, and for the strengthening of the bonds of union already existing between members of the club.

After the remains of the report had been cleared away and cigarettes were the chief source of attraction, the business of the meeting was taken up. The minutes of the last meeting being read and approved, the president, R. S. O'Meara, called upon Capt. McKay, of the McGill Y.M.C.A., to speak a few words. Capt. McKay, mentioning his appreciation of the fact that he was addressing the representatives of the four greatest provinces in the Dominion, explained the misconception many had of the Y.M.C.A., but emphasized the new meaning it was now assuming.

Various topics of interest to Westerners were discussed. It was decided to hold a dance, if possible, in conjunction with the Maritime Club. Further plans for the proposed banquet and the theatre party came into consideration.

A subject of concern for all was the proposal of A. E. Austin, namely, that the return journey to the Coast be made by auto by way of the Southern States. This elicited the hearty approval of all those from British Columbia, and high hopes are entertained for its realization.

Much of the success of the evening was due to the presence of the Harmony Dance Orchestra, who gave many selections in their characteristically talented manner.

COLLEGE COMMENT

We quote the saying of Harry, the Head Walter, of the Montreal Herald, who muses thusly: "The Toronto Athletic Association will have to hire professional sleuths to find a game at which they can beat McGill."

And, judging by the score the boys made last night, "Johnny Walker" is not the only thing that is still going strong.

While we are doing our best to keep the B. W. and F. of McGill in full strength, the U. of California give the following figures for this year's enrollment there: Boxing has 430 men hard at work, wrestling boasts of 193, and a track club membership of 223.

Colgate University is now in the midst of the excitement of her Winter Carnival, which commenced yesterday, and continues to-day and to-morrow.

Columbia, in order to increase her college spirit, is ruling it that henceforth all students must reside for at least two years in one of the college dormitories or fraternity houses.

The "Varsity" advises its readers to paste in their hats the information that the Intercollegiate B. W. and F. Tournament is at Kingston on March 5th and 6th, and that on this occasion Varsity is out to score a win over "Shag's Pets." Now we know where the future white man's hope will come from, perchance: make way, make way!

Herewith is a one-act sketch, told most dramatically in the "Orange and Blue Auburn":
The Freshman sitting on the campus.
"Lo, Bill."
"Lo, Jim."
"This is sure a rotten college, ain't it?"

"Ye'p, no spirit."
"Nope, no spirit!"
"None of the guys here know anything about college spirit!"
"Nope, the poor boobs."
"D'juh hear the rotten cheering at the game?"
"Nope, I didn't go."
"Neither did I."
"What's the use, there ain't no spirit!"
"No spirit."
"S'long, Bill."
"S'long, Jim."

Because of the low rate of exchange and the fluctuations in the value of the dollar, the Cunard Line has decided to establish a bank on the liner Imperator, when it sails for New York from Southampton, England, on February 21, to transact general financial business and exchange money for the passengers. This is to be a branch of the City and Midland Bank of London.

LOYOLA DEFEATS WESTMOUNT

Loyola defeated Westmount last night in a fast exciting game of hockey by the score of 9-3. Loyola showed great superiority in speed, stick-handling and especially checking. Time and again they checked Westmount's rushes, and converted them into goals.

Loneragan played a brilliant game for Loyola, and netted four of the nine goals. A Lamarre also played a good game, and Shibley was a strong substitute. McDonald and Hardy played well for Westmount, and Fitzgerald played a strenuous game on defence.

McDonald scored first for Westmount. Loneragan came right back and evened the score by a pretty piece of work. Both goal-tenders stopped some hot shots, then Loneragan rushed and again beat out Baridon. A Lamarre scored, then Hardy, in the last few minutes of the first period shoved one past Bleau. The score of the first period ended in Loyola, 3; Westmount, 2.

The second period opened with several end to end rushes, with neither side scoring. Finally, Loneragan, from a scrimmage in front of Westmount goal netted the first goal of the period. Westmount tried hard to break away and score, but could not penetrate the Loyola defence. Shibley scored on a rush, and McGarry batted the puck in for Loyola, making the score 6-2 in favor of Loyola.

Westmount started the third period with a rush, and displayed a much better brand of hockey. McDonald broke through and scored. Play was fast with Lamarre making some sensational rushes. Loyola outskated Westmount from now on, and Loneragan, who had just resumed his position at centre, went through the Westmount defence and fooled Baridon. Lamarre tallied again, and Loneragan netted the last score of the game from a rebound.

The line-up:
Westmount.....Loyola
Baridon.....Goal Bleau
Norton.....Point..... Hyland
Fitzpatrick.....Cover Point .. Clement
Hefferman.....Centre Loneragan
McDonald.....Left Wing.. A. Lamarre
Hardy.....Right P. Lamarre
Downes.....Subs..... Shibley
Stewart.....Subs..... McGarry

SUMMARY.

Loyola.....Loneragan 1.00 min.
Loyola.....Lamarre 3.00 min.
Loyola.....Lamarre 0.30 min.

FINAL PRACTICE FOR BASEBALL

Game At Macdonald At Three P.M. Saturday.

The Indoor Baseball teams will practice in the Montreal High School Gym at 5.45 p.m. to-day. A full turnout of the Red and White teams is required to prepare for the game against Macdonald, Saturday. The Whites will be represented by the same men who played on Wednesday. The Red line-up will be taken from the following, and will be the team which is to go to Mac: Henry, Anglin, Cockshutt, Wilson, Crankshaw, Wallace, McGillis, Sigler, Hibbard, Jones Zinck, King.

The game on Saturday will be played at 3.00. Players will leave on the G.T.R. at 1.30.

ARE AMERICAN STUDENTS WEALTHY?

Students at the larger universities in the United States are generally thought of as well-to-do, if not wealthy. Perhaps it is worth while to take note, therefore, of the fact that the sort of student who "works his way through" college was numerous enough in Harvard, in the year just closed, to earn, in the aggregate, more than \$19,000. This, at least, is the figure arrived at on the basis of returns through the university bureau that asks students to get remunerative work while they are carrying on their regular courses. More than half of the amount, so the Harvard Crimson reports, was earned by men engaged in tutoring. Students serving as clerks got \$1,382, as waiters \$1,257, and the musicians \$1,005. These figures moreover disregard summer jobs. They are a good reminder that in the big universities, as outside, there are a lot of steady resourceful, hard-working, clear-thinking individuals, who count definitely in giving quality and fiber to the mass without getting far enough into the limelight to cast much of a shadow.

Macdonald News

CONCENTRATION IN ATHLETICS MUCH NEEDED

Too Many Students Playing Several College Teams.

1 STUDENT — 1 GAME.

Athletic Association Should Prevent Clashing Of Different Team Practices.

Athletics are picking up at Mac. this year in spite of the general feeling of depression at the commencement of the year. We have a first class team in every branch of sport, baseball, basketball and hockey. It is not considered wise to boast or count our chickens too soon, but we are looking forward to seeing one of our teams top their league. Boxing also plays an important part in our physical education and this is as it should be. No other branch of sport ruined and an impetus as boxing during the war. Every unit had its champions and the inter-unit competitions and tournaments that were held did more for the morals of our army than a host of drill sergeants ever could.

However, when the different teams were having their photos taken yesterday, it was noticed how many men there were who played on more than one team. This is a regrettable fact. It eliminates the number of men who are able to make a college team. It has a tendency towards letting a student specialize in sports rather than studies. Take for instance, the case of a student who plays with basketball and baseball teams. He must turn out to all practices to ensure a position on the team as competition is very keen and it is a question of who is best for the position. If a student plays for the two teams, it necessarily means that he spends every afternoon from 4.30 p.m. to 6 p.m. in the gymnasium. This along with the work that should be done, to do justice to the course of study, ensures a rather strenuous life.

Steps should be taken by the athletic association to prevent students from holding a position on more than one college team. This, while it would keep a lot of talent out of some of the athletics would make it possible for more men to get into the college games and would also ensure a greater amount of concentration and specialization in the game which a student is best suited for. This would prevent the clashing found at present where a student plays two games and the difficulty of turning out for all practices of ball.

GIRLS HOCKEY.

The girls held their second hockey practice on Tuesday afternoon from 4.30 to 6 p.m. Mr. C. Boulden put them through a light work-out, showing them the importance of good combination. Mr. Sam Skinner assisted Mr. Boulden by practising goal shooting with the girls. The services of Mr. Boulden are greatly appreciated by all the girls and we hope their ap-

SCIENCE LOST TO TEACHERS

Section "B" Follow Up Yesterday's Victory By Another.

When Section "B" and Science II. lined up to start their game of basketball yesterday afternoon the gymnasium re-echoed shrill yells from their supporters. The wind was cold and strong outside, which meant most of the girls were "on deck" when the game started.

From the start, the Science team missed three of their line up who were suffering from colds. The teachers got away with a good start, attaining an easy lead which they never relinquished. "Section B" showed excellent combination using short passes to accomplish their ends, while Science lacked speed and their passes were too long. Dort Kent starred for her team—her coolness is becoming proverbial. Helen Hall played an excellent game and it was due to her active defense work that the Sciences' score was kept so low. It is worthy of mention that the seven points scored by the Science were netted by Mona Van Dyne, who has only played basketball twice before. The usual good work of Helen Kelly was not brought out in yesterday's game as the teachers sure had her number. The game was rough in spots and numerous fouls made the game more interesting. The teachers sent up a hearty cheer when the final whistle blew with the score 21 to 7 in their favour. The line up was:

Section "B."

Forwards:—D. Kent, F. Joseph, M. Van Dyke, D. Hennessy.
Centres:—D. Le Dain, G. Lewis, Y. Williams, G. McQuat.
Guards:—H. Hall, J. Lawrie, H. Kelly, I. Seybold.

CENTRAL OUST MAC.

The college basketball team were put to the crucial test last night when they played the Central Y.M.C.A. team. This is the second game for the Macdonald team in the Intermediate "B" series. The game was entirely fast throughout, excellent combination being displayed. In this respect, however, the Central team completely outclassed the Macdonald boys. This probably can be accounted for to some extent, by this being their home game. Not only did they display good combination, but they handled the ball well and played their positions excellently. As a result the score stood 45 to 8 in their favor.

The line-up was as follows:

Central Macdonald
King.....Forward..... Amaron
Corriveau.....Forward..... Skinner
Paquette.....Centre..... Templeton
Pink.....Defence..... Sutherland
Clelland.....Defence..... Peterson
.....Spares..... Bowen
.....Spares..... Hatch

Appreciation will be shown by large attendances at the practices. We expect to have two practices at least a week—Tuesday afternoons and Saturday mornings.

MASQUERADE IS COMING WEEK TO-DAY

Many Graduates and Ex-Students Expected.

GREAT PREPARATIONS.

Committees Working At Top Speed.

Preparations are in rapid progress for the Masquerade Dance on the thirteenth. The invitations arrived late from the city, but by putting on several additional helpers, the committee in charge of invitations succeeded in getting most of them mailed yesterday. The Invitation Committee wish to make the announcement here, that, if by some accident or incompleteness of the lists, any lady student or member of the staff has failed to receive a personal invitation, they will please regard it as an accidental error. The Committee wish it to be clearly understood that all lady students are invited. The Masquerade is the Annual dance which the men students provide for the "fair sex" across the campus. If the girls do not all come, it will be a matter of keen disappointment to the men students. Preparations on a large scale are being made. There will be ample room for everyone on the Gym floor, which will be kept entirely clear for dancing; on the gallery, where chairs will be provided for those who wish to "sit out" an occasional dance; in the rendezvous, the "cozy corners" and reception rooms.

The matter of costumes is proving of big interest around the College. If rumors can be relied upon there will not be lacking many well-known characters from literature, nor bashful damsels of the 18th and 19th centuries, nor Dutch maids, or flower girls, or Red Cross Nurses, and to keep them company, Spanish swordsmen, cow boys, soldiers of every land, tramps, clowns, and pierrots.

It is not expected that masks will be worn for more than three dances. The rules must be observed, however, and no masks removed before the proper time. The committee are arranging to have masks on sale here at the college for those who have not procured them in town. Also a certain number of costumes can be obtained through the committee for any person wishing to rent one.

The goddess of good fortune smiled upon the chairman of the Reception committee when he visited the city to obtain an orchestra. In consequence he was able to secure the services of a very fine orchestra and excellent music is assured.

Remember, the Masquerade is the big event of the winter season. All the girl students are invited, so come one, come all.

Notice.—The Invitation Committee will be glad if any omissions in sending invitations will be notified to them as early as possible.

SERIOUS ACCIDENT.

A very serious and regrettable accident befel "Jack" Buckland on Wednesday last during the Senior-Junior hockey match. Buckland was playing defence for his class and helped not a little in keeping the Junior score to a minimum. During the second period he received a hard shot on the knee, the puck striking just above the knee cap and resulting in a very serious injury causing an internal hemorrhage as well as water on the knee. At present he is in hospital and suffering from severe pain. It is hoped that his injury will not develop into any permanent disability, and that Jack will be about in time for the masquerade. His cheery smile and hearty manner are greatly missed by all the students in college. Hurry up and get better "Buck," we need you to keep the fires of college life going at their best.

FRESHMAN LIT. HOLD-MEETING.

Last night at 6.45 the Freshman Lit. held its weekly meeting, at which several speakers were heard. The room was not overcrowded. There were three speakers who were full of the subject, so to speak. Mr. McEwan spoke on "Aircraft as a means of commercial conveyance." He treated his subject well and gave statistics to prove his arguments. He was followed by Miss Russell, who gave a very enlightening talk on "Fox Farming in the Eastern Provinces." She had some interesting matter for future Macdonald graduates who might wish to take up this proposition. Mr. Drummond next gave a talk on "Necessity of Improving Rural Conditions." The last speaker has been heard before and needs no comment other than that he handled his subject unusually well. Miss Zeederberg, who presided, closed the meeting by complimenting the speakers for their efforts and indicated that others would be asked to prepare later.

NOTICES

Members of executives and others are requested to look under this heading for notices of all futurities. Each notice is absolutely official. The Editor will not be responsible for errors in articles unless the time and date are written out in full when they are sent in.

LOST.

Will the person who took a leather note-book from the Union, by mistake, please return to Union Porter. The name inside, Murray W. Hayes, Law '22.

MEDICAL DINNER COMMITTEE.

There will be a meeting of the Medical Dinner Committee in the Union tonight at 5.30 p.m. The class representatives are asked to be present as this may be the final meeting.

PHYSICAL SOCIETY.

Professor L. A. Herdt will address the society on Friday, Feb. sixth, at five p.m., in the Physics Building. The subject will be "Current Carrying Capacity of Wires and Cables." All interested are cordially invited to attend. Members of the society are requested to meet in the Physics Library at four-fifty.

BILLIARD TOURNAMENT.

All those who signed up for the billiard tournament are requested to hand in their fee of 50 cents before noon Friday. The handicaps are already made out so the sooner the cue-artists leave the medium of exchange with Mr. Wilson or Mr. Inwood the sooner the tournament will be away to a flying start. No handicaps will be announced until this is done, so everybody up.

NEWS BOARD.

There will be a meeting of the News Board of the "Daily", Friday, at 1.00 p.m. All members are requested to attend.

McGill Rifle Club Executive will meet at 5.15 p.m. on Friday, Feb. 6th, in the Reading Room of the Arts Building. The Honorary President and Vice-President are asked to attend.

BOXING TO-DAY.

Both boxing classes meet to-day at the usual hour.

THE TEA.

There are still a few tickets left for the tea on Saturday. If you have not yet secured yours, call at the Union and get it. You don't want to miss this. It promises to be a most popular event.

E. T. CLUB EXECUTIVE.

Every member of the executive is requested to attend a meeting in the McGill Union at 5.30 p.m. Tuesday, February 10th. All representatives will please bring in their membership lists to date. Important business is to be discussed.

S. J. STANDISH,
President.

SUNDAY AT FOUR.

Dr. F. L. Ritchie, Principal of the Congregational College will give the second of his series of addresses at Central Y.M.C.A. on Sunday, at 4 p.m. The subject of this address will be "The History of a Purpose."

DES MOINES DELEGATES.

On Sunday, 8th, at 4.15 p.m., in Strathcona Hall, there will be an important meeting of the Boards of the Y.M.C.A. and Y.W.C.A., with the Des Moines Delegation. The purpose is to discuss some of the questions raised at Des Moines with regard to the Student Movement in Canada. Others who may be specially interested in this matter are urged to attend.

The following Science men have not yet turned in biographies for the '21 Annual. These biographies must be in this week or they will have to be omitted from the Annual:

A. Cambron.
E. G. Clossiey.
S. Davis.
C. L. Dewar.
N. M. Durant.
G. E. Irving.
H. S. Jordan.
J. B. Mawdsley.
F. L. Mitchell.
L. B. Rochester.
F. W. Scrivner.
M. R. Wells.

Biographies should be handed to Fortin, Rurnford or Macfarlane.

DENTALS NOTICE.

The visit to the various dental parlors will take place on Monday, Feb. 9th, 1920.

Students desiring to attend will please meet at the Union at 7.30 p.m. sharp. It is up to every student to take advantage of this splendid opportunity.

Refreshments will be served.
G. S. VEITH,
Secy.-Treas.

MED. '23 HOCKEY NOTICE.

Will the following turn out to-night at 6.15 at the Campus rink for the game with Med. '23:

Hamilton.
Ackman.
Hall.
Parlow.
Wilson.
Mair.
McEligott.
Lawson.
Murphy.

We've Got 'Em
SHIRTS For All of You
Regardless of Size
Get That? Regardless of Size

Big and little—thick and thin—we can fit every one—and we're proud of the fact.

In our Shirt stock there are varied lengths of sleeves—body measurements that allow for breadth and weight—lengths out of the ordinary, and collar sizes up to 20. The colors and patterns for all tastes and occasions—good materials, too.

\$1.95-\$2.45 and up

Now come and get your Shirts—you difficult-to-fit men of McGill.

Two doors to the Men's Shop — both handy to Bleury Street. Use either or both.

OUTBREAK OF FIRE AT KING'S COLLEGE

Main Building Of Historic University Destroyed.

Yesterday afternoon a serious fire broke out in the main building of the University of King's College, Windsor. The final result and the extent of the damage are not yet known, but it is feared that the building has been totally destroyed.

The firemen were greatly handicapped at the outbreak of the fire by the fact that the hydrants were all frozen. It took some time to get these working. Their efforts were mainly directed to salvaging the contents of the building, amongst which are some valuable paintings.

The cause of the fire is not yet known. The building is of stone, divided into four bays by stone partitions. The fire originated in the easternmost partition and spread rapidly to the others, the westernmost of which is occupied by the president of the University, Dr. Stannage Boyle.

The destroyed building is one of the most historic of its kind in Canada. It is interesting to note that the University was the first to be set up in British Overseas Dominions.

CLASS MANAGERS.

A meeting of the managers of the various class teams will be held on Monday at five-thirty, in the Union.

REQUIREMENTS OF PHYSICAL DEPARTMENT

Dr. A. S. Lamb Grants Interview.

NEW REGULATIONS.

Report Of Recent Physical Education Convention In New York.

A representative of the "Daily" had an interview yesterday with the director of the Department of Physical Education, Dr. A. S. Lamb, with reference to the recent Physical Education Convention in New York, and to matters pertaining to physical education at McGill.

Simultaneously with the Physical Education Convention were held meetings of the College Athletics Association and the Association of Normal School Physical Education. At the three conventions were present about fifty representatives from Physical Education Departments.

The Convention discussed problems in connection with physical education in the most up-to-date universities in the United States. In several of these Universities, physical education is compulsory for the whole course. In a few instances, physical training is exacted only in the first two years.

The Universities of Pennsylvania and Columbia have especially stringent physical regulations. Physical Education is rated as a subject in the curriculum. Swimming requirements are especially severe. Every year three or four men are refused graduation for failure to satisfy the swimming requirements.

Elective athletics are the same as at McGill. Men may take part in different forms of athletics. This exempts them from the regular work while their special sports are going on, but not when their seasons are ended. Of course, there are problems at McGill which differ from the problems of these universities.

The American authorities realize the value of physical as well as mental fitness before graduation. Papers were read by representatives, dealing with several topics. Among other things, the "Confession of Faith in Matters Athletic," which we publish herewith, was discussed. It is interesting in this connection to note that the large industrial concerns of the United States are devoting time and money to the physical welfare of their employees. Chief among these firms is the Carnegie Steel Corporation, which finds that its returns in increased efficiency greatly exceeds the outlay for these improvements.

Questioned as to the Wicksteed Competition, Dr. Lamb stated that it will be held as usual, early in March. The Intercollegiate Meet has had to be postponed, as Toronto University cannot produce a team.

With reference to the regulations passed by the Corporation of the University of January 14th, Dr. Lamb made the following statement:

Physical work is to be made compulsory for the first three years in the faculties of Arts, Medicine, Science and Dentistry, and for the first two years in the Faculty of Law, for two hours each week. Unless it is necessary to meet exigencies of accommodation, there will be no modification of these requirements. At present, physical education is not compulsory in the Faculty of Law, nor in the third year in the other faculties, and in the first two years, is only required one hour a week.

Physical examination will be compulsory for all men entering the university. They will be classed into five groups:

A—Those fit for all forms of athletics.
B—Those fit for some forms of athletics.
C—Those requiring special exercise.
D—Those temporarily unfit, or requiring remedial gymnastics.
E—Those unfit for any form of exercise.

The one-eighth rule applies in the Department of Physical Education the same as in the other departments of the University.

The Department of Physical Education, which replaces the old Athletic Committee of Corporation is composed of representatives of the governors, of graduates, of the Graduates' Stadium Committee, of the different faculties, of the students, the President of the Athletic Association, the President of the Students' Council, and the Professional Coach. All physical work in the University is under the Department, including the Women's School of Physical Education which has at present eleven full-time First Year students in the regular two-year course.

The views of the Physical Education Convention are given in the following article:

BRIEF CONFESSION OF FAITH IN MATTERS ATHLETIC:

1—I believe in the intelligent control of the life of the body that it may be the obedient servant of the mind, and, in particular, I believe in physical exercise, adequate in kind and amount to maintain health, develop physical vigor and mental strength, prolong life, and increase happiness.

2—I believe in the development of wholesome games and sports, particularly those that are conducted out of doors.

3—I believe such sports should in and of themselves give real joy and recreation, and that they should depend as little as possible upon extrinsic motives, such as social prestige, newspaper notoriety, and the like.

4—I believe that these sports should be of such a kind as to develop both moral and physical courage and self-control, teach generous subordination of the individual, and train leadership and the sense of responsibility to the group. I believe that the motive of keen, honorable competition and rivalry properly controlled is one of the finest weapons in the moral arsenal.

5—I believe that every man in a college group physically able to do so should be a participant in one or more of the college sports, and that he should chiefly follow those which he really enjoys. I believe that not a few of these men will need special corrective exercises for specific physical defects, but this is a minor problem.

6—I believe that the habits of exercise and recreation, cultivated in college should be explicitly taught with a view to continuation in after life. To this end, a measure of intelligent familiarity should, especially encouraged with such sports and games as can be pursued through middle age and beyond. If a fair degree of skill be not obtained in youth, it is far more difficult to secure it later, and its absence frequently serves to discourage learning.

7—I believe there is such a thing as excessive exercise and muscular development, not only in the familiar form of overstrained heart, but also in a general hypertrophy of muscular tissue which, for men subsequently compelled to live a highly sedentary life, may be an asset of wholly doubtful value. Robustness, resistance, virility, rather than great muscular power, should be the general aim.

8—I believe amateurism is an absolute essential to wholesome college games and that it means high-handed love of gentlemanly sport for its own sake.

9—I believe professionalism consists of a spirit, a point of view; that it is decidedly frequent among nominal amateurs; and that it is by no means to be defined solely in terms of money value set on athletic services, although this is perhaps its commonest sign. Men who play for motives other than the love of the game, men to whom victory, however won, is the controlling end, are men already on the road to professionalism, men who have in some measure sacrificed their amateurism.

10—I believe that a good deal of professional training of athletic teams, particularly in football, has been grossly objectionable in overworking boys whose primary obligation is to the academic aims of the college. The result has often been that the boy has done neither job well—has been too exhausted to study and too much disturbed at his class deficiencies to put his whole spirit into the games.

11—I believe that any system which by its very nature encourages proselytizing among boy athletes in secondary schools is pernicious. I believe it is practically impossible to prevent such practices as long as the old ideals endure. As long as colleges need the fees of students, perhaps proselytizing of some sort is inevitable. Certainly the line between legitimate advertising and illegitimate proselytizing is hard to follow in the moral twilight of college financial depression.

12—I believe that a good deal of professional training of athletic teams, particularly in football, has been grossly objectionable in overworking boys whose primary obligation is to the academic aims of the college. The result has often been that the boy has done neither job well—has been too exhausted to study and too much disturbed at his class deficiencies to put his whole spirit into the games.

Therefore

The result has often been that the boy has done neither job well—has been too exhausted to study and too much disturbed at his class deficiencies to put his whole spirit into the games.

SNOWSHOERS HAVE ENJOYABLE TIME

Driving Sleet and Scurrying Snow Prove No Detriment.

Through the softly-falling snow last night, one hundred hardy souls (more or less) wended their way up Mount Royal. The beautiful moon-light promised by the Y.M.C.A. and Y.W.C.A. failed to materialize, but that did not deter many of the fair sex from putting in an appearance at the snowshoe tramp.

At eight-thirty the procession left Strathcona Hall, with snowshoes on their backs and moccasins on their feet.

After two hours' steady going, enlivened by the usual incidents, tragic, amusing and serio-comic—of a snowshoe tramp in a storm, the party returned to the hall to partake of the generous refreshments provided by the Y.M.C.A.

An interesting feature of the programme was Johnnie King and his whistle. At every foot of the horn, a change in couples took place. Of course, a few brilliant souls, managed to avoid the change by conveniently being out of sight and hearing at the signal.

Miss Cameron, of the Medical Library acted as chaperon.

C.O.T.C. WILL BEGIN COURSE

Lectures To Be Given On Artillery and Medical Service.

Members of the O.T.C. who have signed up for the special courses in Artillery and Medical Services will have an opportunity to listen this afternoon to two exceedingly interesting lectures given by Lieut.-Col. Alfred T. Bazin, D.S.O., in Lecture Theatre A, in the New Medical Building, and Lieut. C. C. Brooks, in Room 33, Engineering Building.

Lieut.-Col. Bazin is a McGill graduate who overseas in early 1916 with the 3rd Canadian Field Ambulance, with which unit he served for the most of the two and a half years he was in France, rising finally to the position of Commanding Officer. For the excellent work that Col. Bazin did he was awarded the D.S.O. Those who have passed through the hands of this excellent field ambulance will testify that it was an honor deserved long before Col. Bazin received it. Just previous to the armistice, Lieut.-Col. Bazin was given charge of the surgical side of the McGill General Hospital (No. 3), near Boulogne.

The subject on which Col. Bazin will speak, "The Organization of a Field Ambulance," is one which he knows thoroughly, and no one who has signed up for this course, or who would like to attend this lecture, should neglect the opportunity of being present at 5.15 p.m. to-day.

Lieut. C. C. Brooks was conceded to be the foremost authority on "Aerial Photography" in the Canadian Corps, and it has been stated that his equal was not to be found in France. Lieut. Brooks went overseas with the 1st Canadian Motor Machine Gun Brigade in 1914, but his services were called for by the Royal Flying Corps, which wished him to take charge of some of its photographic work.

For over two years Lieut. Brooks was in charge of the Aerial Photographic Branch of No. 15 Squadron, which was attached to the Canadian Corps. It was Mr. Brooks who first conceived and carried out the plan of piecing together aerial photographs of the battlefields and thus forming a mosaic. One mosaic in particular, on a scale of 1-5000, is the largest ever made. Its subject is Sallamir Hill, and it is ten yards in length.

In Lieut. Brooks the C.O.T.C. members will discover a ready and very interesting speaker and one who is an acknowledged authority in this particular branch of work. The lecture will start at 5.15 p.m. in Room 33, Engineering Building. Points on which Mr. Brooks will touch are the relation of Aerial Photography to Intelligence, the early history of aerial photography, the details of information gained and how this information is used, the reading of the photographs, and the lecture will be illustrated with lantern slides of representative photographs, demonstrating the points which Mr. Brooks wishes to impress on his hearers.

INDIAN SCHOOL AT EDMONTON.

For the purpose of establishing a home and industrial school for the Indian children of Alberta, the Indian Department of the Federal Government of Canada has purchased the Robert Hume farm of 855 acres, situated a short distance north of the city. A school building will be erected on the farm at a cost of about \$100,000. Under the present policy existing between the Government and the different churches in carrying on the educational work among the Indian people, the Government provides the plant and a per capita tax, while the churches provide the chaplains and manage the school, meeting any deficits if they should arise from year to year.
